Schneider Electric's Juno Lighting Group Announces the Addition of Lighting Controls and Integrated Home Systems to its Product Line

Juno Lighting Group sales agents to provide Schneider Electric's expansive lighting control portfolio to distributors, architects and consulting-specifying engineers

Palatine and Des Plaines, IL, May 10, 2010 — Schneider Electric, a global specialist in energy management, and Juno Lighting Group, a subsidiary of Schneider Electric and a leader in high-quality and innovating lighting solutions, announced today the availability of lighting control products through the Juno Lighting Group United States sales agents. With this announcement, Juno Lighting Group, which provides innovative products like ultra-efficient, eco-friendly LED luminaries, now offers customers Schneider Electric's lighting control products including in-line occupancy sensors, C-Bus™ network lighting control and Wiser™ IP based lighting control. Together, Schneider Electric and Juno Lighting Group are able to seamlessly work together to produce lighting with automated and web-enabled control, occupancy-based solutions and dimming capabilities.

"We are pleased to have the opportunity to collaborate with Juno Lighting Group's nationwide team of sales agents to create a 'One Schneider' solution for our customers," said Tony Gentile, Vice President, Installation Systems & Control, Schneider Electric. "With the help of Juno Lighting Group, Schneider Electric lighting controls will have greater exposure to a larger audience, including distributors, architects and consulting specifying engineers."

"By combining Schneider Electric's controls experience with lighting expertise we are able to create a winning combination for our customers," said Tim Rooney, Vice President, Sales, Juno Lighting Group. "Schneider Electric's lighting control products complement our robust lighting portfolio, providing customers access to a complete solution from one sales agent. Furthermore, Juno Lighting Group sales agents have access to global products from Schneider Electric, giving customers the opportunity to extend their portfolio to include lighting control products and solutions."

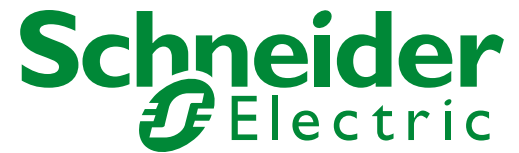

The following Schneider Electric products are available through the Juno Lighting Group sales channel effective immediately:

Press Release

- Schneider Electric Occupancy Sensors help building owners achieve energy savings and energy code compliance with PIR, Ultrasonic and Dual Technology sensors that are easy to select, install and commission.
- C-Bus™ is a low voltage control system for lighting and third party sub-system control. The C-Bus control system uses architect inspired, aesthetically pleasing, keypads and touch-screens using simple CAT-5 cabling connecting input units together, using any topology.
- Schneider Electric's Wiser™ IP Based Controller integrates lighting, multi-media and telecommunications technologies into one simple solution, across many platforms.

Additionally, Schneider Electric and Juno Lighting Group will be exhibiting at [Lightfair International](#), taking place May 12-14, 2010 in Las Vegas at the Las Vegas Convention Center. Come see how Schneider Electric and Juno Lighting Group products seamlessly work together providing automated, web-enabled, and occupancy-based lighting solutions at the Schneider Electric booth, #627 or the Juno Lighting Group booth, #635, located adjacent in the exhibition hall.

About Schneider Electric

Schneider Electric, a global specialist in energy management, is a leader in offering high-quality, innovative commercial and residential lighting solutions and advanced system controls. Schneider Electric provides lighting fixtures offered in the product ranges of Juno®, Indy™, AccuLite™, Aculux®, NaviLite® and DanaLite. Schneider Electric lighting and control solutions including Powerlink™, C-Bus™ and Cassia™, provide one of the most comprehensive energy-saving offers in the industry, combining automated and web-enabled control with occupancy-based solutions and dimming capabilities.
