FOR IMMEDIATE RELEASE

**JUNO LIGHTING GROUP® INTRODUCES STYLISH NEW JUNO® SERIES
COMPATIBLE WITH TRAC SYSTEMS**
Cylindra™ Series Combines Superior Performance With Contemporary Design

DES PLAINES, Ill. (June 12, 2007) — Juno®, a Juno Lighting Group® brand, has introduced the Cylindra™ Series that combines the latest generation of ceramic metal halide lamps with a contemporary design that delivers superior optical performance, aesthetics and energy savings.

The Cylindra Series is the latest addition to Juno's family of trac fixtures and offers versions that are compatible with the company's most popular trac systems: Trac-Master®, Trac 12® and Flex 12. Trac-Master models are available for a variety of CMH lamp types: T4 SuperMini, MR16 CMH, PAR, T4, T6, and ED17 lamps in packages from 20 watts up to 150 watts. In addition, the Cylindra Series includes halogen fixtures that accommodate the full range of halogen lamps: line voltage PAR20, PAR30, PAR38 and low-voltage MR16. This enables the Cylindra Series to offer the flexibility to illuminate any space and facilitates visual continuity when incorporating different light sources in a project.

All Cylindra lampholders feature a quick-release bayonet-mount media cartridge that accepts up to two light control accessories. Media can be easily installed or removed without the use of tools. The bayonet-mount attachment simplifies relamping

-more-

and fixture maintenance, making Cylindra a popular choice with owners, designers and installers.

Juno®

Juno recessed and trac lighting offers distinctive, high-quality lighting that is easy to install. Juno is regarded as the market leader in the track lighting category. Juno's products — which are used in retail stores, hotels and restaurants, residences and commercial buildings — include Trac-Master and Trac 12 lighting systems, award-winning MH₂ and MH_V trac fixtures, commercial downlights, and undercabinet lighting.

Juno Lighting Group®

Founded in 1976, Juno Lighting Inc. is a leader in offering high-quality and innovative commercial and residential lighting solutions. Under the Juno Lighting Group umbrella, the company comprises nine product brands: Juno®, Indy™, Alfa, AccuLite™, Elate™, ModuLight®, Aculux™, NaviLite® and DanaLite. The product brands provide lighting fixtures that are attractive, well-engineered and easy to install. For more information on Juno Lighting Group and its family of brands, visit www.junolightinggroup.com. Juno Lighting Group is a subsidiary of Square D Company and Schneider Electric, the world's power and control leader.
