FOR IMMEDIATE RELEASE

**JUNO LIGHTING GROUP® EXPANDS OFFERINGS FOR
POPULAR JUNO® MR16 FIXTURES
*Uno/Duo™ Series and Conix® Design Feature New Styles***

DES PLAINES, III. (June 12, 2007) — Juno®, a Juno Lighting Group® brand, has introduced an enclosed MR16 design in its popular Uno/Duo™ fixture, while its elegant MR16 Conix® design is now available for its Trac 12 and Flex 12 low-voltage trac systems.

The unique all-aluminum construction of the Enclosed Uno/Duo Series provides optimal lamp shielding, eliminating the stray backlight effect from the lamps. Its concentric gimbal rings allow light to be aimed in all directions. It simultaneously accepts up to two 2-inch diameter light control accessories and is dimmable. In addition, the Enclosed Uno/Duo Series features tool-less lamp replacement and an integral 12V electronic transformer. The Enclosed Uno/Duo Series is available in one lamp, two lamp or two lamp framed designs. These fixtures feature black, graphite, silver and white finishes and are compatible with Juno's Trac-Master line voltage trac systems.

Another elegant Juno design is also expanding. The Conix design has been introduced in a low-voltage fixture that is compatible with the Juno Trac 12® and Flex 12 low-voltage trac systems. Featuring Juno's proprietary Wishbone yoke and a fully

enclosed lamp housing, these new fixtures are packed with features that make them the ideal choice for the most demanding applications. These fixtures feature full 360 degree rotation, incorporate integral aiming locks and simultaneously accept up to two light control accessories. The new Conix low-voltage fixtures are available in black, silver and white finishes.

Juno®

Juno recessed and trac lighting offers distinctive, high-quality lighting that is easy to install. Juno is regarded as the market leader in the track lighting category. Juno's products — which are used in retail stores, hotels and restaurants, residences and commercial buildings — include Trac-Master® and Trac 12 lighting systems, award-winning MH₂ and MH_V trac fixtures, commercial downlights, and undercabinet lighting.

Juno Lighting Group®

Founded in 1976, Juno Lighting Inc. is a leader in offering high-quality and innovative commercial and residential lighting solutions. Under the Juno Lighting Group umbrella, the company comprises nine product brands: Juno®, Indy™, Alfa, AccuLite™, Elate™, ModuLight®, Aculux™, NaviLite® and DanaLite. The product brands provide lighting fixtures that are attractive, well-engineered and easy to install. For more information on Juno Lighting Group and its family of brands, visit www.junolightinggroup.com. Juno Lighting Group is a subsidiary of Square D Company and Schneider Electric, the world's power and control leader.
