FOR IMMEDIATE RELEASE

JUNO'S TIME-TESTED TRACS NOW EQUIPPED FOR STYLISH UPDATES

*New Quick Jack Transformers and Adapters
Allow For Use with Colorful Array of Alfa™ fixtures*

DES PLAINES, Ill. (January, 2008) — The possibilities for Juno Lighting Group's™ robust trac systems have just been expanded, with the creation of new transformers and adapters. The new Quick Jack Transformers and Adapters allow for increased versatility. All of the Juno brand trac systems can now be used with the many decorative varieties of Alfa™ fixtures; pendants and directionals.

“Adding the option of using Alfa fixtures with our Juno brand trac gives retailers access to a well-rounded line, with an extensive range of color and shape options to choose from,” said Dan Fernandez, director of product management for AccuLite and NaviLite®, Juno Lighting Group.

The ease of installation and versatility common to the Juno brand has been maintained with these innovative adapters. Alfa pendants, directionals, or a mix of the two, can now be used on Juno brand tracs without additional modifications. This means remodeling projects are spared the added expense of removing and replacing existing Juno trac.

The Juno Quick Jack Transformers will convert line voltage to 12-volts, and are available for use on Juno Trac-Master and Trac-Lite systems. The new Quick Jack Adapters are for Trac 12 and Flex 12, already low-voltage trac systems.

For detailed information on the use of Quick Jack Adapters or Transformers with the different fixture options, consult the new Juno and Alfa catalogs.

Juno Lighting Group®

Founded in 1976, Juno Lighting Inc. is a leader in offering high-quality and innovative commercial and residential lighting solutions. Under the Juno Lighting Group umbrella, the company comprises eight product brands: Juno®, Indy™, Alfa™, AccuLite™, Elate™, Aculux™, NaviLite® and DanaLite. The product brands provide lighting fixtures that are attractive, well-engineered and easy to install. For more information on Juno Lighting Group and its family of brands, visit www.junolightinggroup.com. Juno Lighting Group is a subsidiary of Square D Company and Schneider Electric, the world's power and control leader.
